

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Horst & Susanne Roessler  
DOCKET NO.: 10-28991.001-R-1  
PARCEL NO.: 05-34-100-017-0000

The parties of record before the Property Tax Appeal Board are Horst & Susanne Roessler, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$7,750  
IMPR.: \$42,032  
TOTAL: \$49,782**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 1,600 square feet of living area. The dwelling was 96 years old. Features of the home include a full unfinished basement, a fireplace and a two-car detached garage. The property has a 5,000 square foot site and is located in Wilmette, New Trier Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of frame or frame and masonry construction that ranged in size from 1,476 to 1,740 square feet of living area. The dwellings ranged in age from 104 to 132 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full or partial unfinished basement. One comparable has central air conditioning. One comparable has a 1.5-car garage and one comparable has a two-car garage. The comparables have improvement assessments ranging from \$32,103 to \$37,028 or from

\$20.63 to \$22.66 per square foot of living area. The subject's improvement assessment is \$42,032 or \$26.27 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$34,720 or \$21.70 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of stucco or frame construction that range in size from 1,632 to 1,886 square feet of living area. The dwellings ranged in age from 85 to 99 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement. One comparable has a finished recreation room in the basement. One comparable has a fireplace. Two comparables have a 1-car garage and one comparable has a 1.5-car garage. These properties have improvement assessments ranging from \$44,328 to \$49,792 or from \$26.73 to \$27.47 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board gave reduced weight in its analysis to appellant's comparable #4 due primarily to the age disparity when compared to the subject property. The Board finds the remaining comparables are all relatively similar to the subject with appellant's comparable #1 and board of review comparables #3 and

#4 the most similar to the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.63 to \$27.47 per square foot of living area. The subject's improvement assessment of \$26.27 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
