ANALYSIS

The subject property is improved with a class 2-99 residential condominium unit located in Worth Township, Illinois, Cook County. The subject property is a one bedroom and one bath unit within the subject's building and contains 644 square feet of living area. The appellant argued that the market value of the subject property is not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted a appraisal undertaken by James E. Sloan. The appraisal indicates that he is a State of Illinois certified general appraiser. The appraisal indicates the subject has an estimated market value of \$75,000 as of January 1, 2009. The appraisal report utilized the sales comparison approach to value to estimate the market value for the subject property. The appraisal reports included interior and exterior photographs of the subject's improvement and comparables.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$9,657 was disclosed. This assessment reflects a market value of \$108,020 using the Illinois Department of Revenue's 2010 three year median level of assessment for class 2 property of 8.94% In support of

the subject's assessment, the board of review also submitted a memo from Dan Michaelides, Cook County Board of Review Analyst. The memorandum shows that 18.4% of ownership, within the subject's building sold in 2006 for a total of \$267,000. An allocation of two percent per unit for personal property was subtracted from the aggregate sales price then divided by the percentage of interest of units sold to arrive at a total market value for the building of \$1,422,065. The subject's percentage of ownership, 10%, was then utilized to arrive at a value for the subject unit of \$142,207. The board also submitted a grid listing for each unit in the building: the property identification number, the percentage of ownership; the assessment, and occupancy factor. In addition, the board of review listed the 2006 sale of two units in the buildings used in the memorandum analysis. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed, the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3d Dist. 2002; Winnbago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d (2d Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill. Admin. Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction in the subject's assessment is warranted.

In determining the fair market value of the subject property, the Board finds that best evidence is the appellant's appraisal dated January 2009 for \$75,000. The Board finds this appraisal to be persuasive because the appraiser personally inspected the interior and exterior of the subject property, and utilized market data to obtain sales comparables while providing sufficient detail regarding each sale in estimating the subject's market value.

Therefore, the Board finds that the subject property contained a market value of \$75,000 for the tax year 2010. Since the market value of the subject has been established, the median level of assessment as determined by the Illinois Department of Revenue's 2010 three year median for class 2, residential property of 8.94% will apply. In applying this level of assessment to the subject, the total assessed value is \$6,705 while the subject's current total assessed value is above this amount at \$9,657. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
