

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Reber
DOCKET NO.: 10-32486.001-R-1
PARCEL NO.: 14-32-211-012-0000

The parties of record before the Property Tax Appeal Board are Kenneth Reber, the appellant, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,620
IMPR.: \$244,155
TOTAL: \$275,775

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story dwelling of masonry construction containing 5,075 square feet of living area. The dwelling was 7 years old. Features of the home include a full basement with finished recreation room, central air conditioning, three fireplaces and a 3.5-car attached garage. The property has a 4,216 square foot site and is located in Chicago, North Chicago Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as three-story dwellings of masonry construction that ranged in size from 5,237 to 5,778 square feet of living area. The dwellings ranged in age from 3 to 118 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement with a finished recreation room and central air conditioning. Two of the comparables have two fireplaces and two of the comparables have two-car attached garages. The comparables have improvement assessments ranging from \$148,022 to \$207,858 or from \$27.14 to \$39.69 per square foot of living area. The subject's improvement assessment is \$244,155 or \$48.11 per square foot of living area. Based on this evidence, the appellant requested a

reduction in the subject's improvement assessment to \$171,789 or \$33.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with two or three-story dwellings of masonry construction that range in size from 4,558 to 5,607 square feet of living area. The dwellings ranged in age from 4 to 15 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement with finished recreation room, central air conditioning, one or two fireplaces and 2.5 to 3-car garages. These properties have improvement assessments ranging from \$233,780 to \$274,743 or from \$49.00 to \$51.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of six comparable properties into the record for the Board's consideration. The Board gave reduced weight in its analysis to appellant's comparables #2 and #3 due to the significant age disparities when compared to the subject property. The Board finds the appellant's comparable #1 and the board of review comparables are similar to the subject in location, size, style, exterior construction, features and age with the board of review's comparables requiring the least adjustments to reflect the subject property. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$39.69 to \$51.29 per square foot of living area. The subject's improvement assessment of \$48.11 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
