

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sean Smith
DOCKET NO.: 10-33097.001-R-1
PARCEL NO.: 04-25-106-034-0000

The parties of record before the Property Tax Appeal Board are Sean Smith, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,335
IMPR: \$108,157
TOTAL: \$129,492

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction. The dwelling is approximately three years old and contains 4,632 square feet of living area. Features of the home include a full finished basement, central air conditioning, two fireplaces, and a three-car garage. The subject property has a 25,101 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of masonry or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are from 39 to 43 years old and contain from 4,235 to 4,724 square feet of living area. Each comparable has a garage, central air conditioning, one or two fireplaces, and a partial basement, one of which is finished. The comparables have improvement assessments ranging from \$69,708 to \$78,689 or from \$16.46 to \$17.00 per square foot of living area. The subject's

improvement assessment is \$108,157 or \$23.35 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$77,262 or \$16.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$129,492 was disclosed. The board of review presented descriptions and assessment information on three suggested comparable properties improved with two-story dwellings of masonry construction. Two of the comparable properties have the same assigned neighborhood code as the subject. The dwellings are from three to seven years old and contain from 3,850 to 5,107 square feet of living area. Each comparable has a garage, central air conditioning, from one to three fireplaces, and a full basement, two of which are finished. These properties have improvement assessments ranging from \$112,116 to \$158,312 or from \$27.17 to \$31.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven suggested comparables. The appellant's comparables were substantially older than the subject and received reduced weight in the Board's analysis. The board of review comparable #1 was located in a different neighborhood and also received reduced weight. The Board finds that board of review comparables #2 and #3 were very similar to the subject in age, design, exterior construction, location, and foundation and were generally similar in living area. Due to their similarities to the subject, these two comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$112,116 and \$112,501 or \$29.12 and 27.17 per square foot of

living area, respectively. The subject's improvement assessment of \$108,157 or \$23.35 per square foot of living area falls below the assessments of the most similar comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
