

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jin Xu  
DOCKET NO.: 10-33133.001-R-1  
PARCEL NO.: 04-21-304-041-0000

The parties of record before the Property Tax Appeal Board are Jin Xu, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 9,312  
**IMPR.:** \$41,239  
**TOTAL:** \$50,551

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame and masonry construction. The dwelling is approximately 35 years old and contains 2,737 square feet of living area. Features of the home include a full finished basement, central air conditioning, a fireplace, and a two-car garage. The subject property has a 10,068 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on April 15, 2009 for a price of \$470,000 or \$171.72 per square foot of living area, land included. The appellant partially completed Section IV - Recent Sale Data of the residential appeal form and disclosed the name of the seller; that the subject's sale was not a transfer between related parties; and that the seller's mortgage was not assumed. The appellant stated "UNKNOWN" with respect to answering the question "Sold by" and did not know if the property was advertised for sale and for how long. To further

document the sale, the appellant submitted a copy of the Illinois Real Estate Transfer Declaration, PTAX-203, disclosing the subject property was purchased in April 2009 for a price of \$470,000. On the transfer declaration, question #7 ("Was the property advertised for sale?") was marked "YES". In a letter that accompanied the appeal, counsel stated the subject had a market value of \$470,000 and the assessment should be calculated by applying the 10% ordinance level of assessment for Class 2 residential property in Cook County. Based on this record, the appellant requested the subject's assessment be reduced to \$47,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of the subject totaling \$50,551 was disclosed. The subject's assessment reflects a market value of \$565,447 or \$206.59 per square foot of living area, land included, using the 2010 three year average median level of assessments for class 2 property in Cook County of 8.94% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code §1910.50(c)(2)).

In support of the assessment, the board of review submitted information on four comparable sale properties that are improved with two-story dwellings of frame and masonry construction. The dwellings range in age from 25 to 38 years and contain from 3,016 to 3,420 square feet of living area. The comparables have the same assigned neighborhood code as the subject. Features include basements, central air conditioning, fireplaces, and garages. The comparables have sites ranging in size from 10,400 to 16,296 square feet of land area. The comparables sold from March 2009 to June 2010 for prices that ranged from \$552,000 to \$900,000 or from \$183.02 to \$296.64 per square foot of living area, land included. As part of its evidence, the board of review disclosed that the subject property sold in December 2008 for a price of \$527,500 or for \$192.73 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Fair cash value is defined in the Property Tax Code as "[t]he amount

for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so to do. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002); 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. (86 Ill.Admin.Code §1910.65(c)). The Board finds the appellant has not met this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the sale prices of the board of review comparables #1, #2, and #4 are the best evidence of market value in the record. These comparables sold from September 2009 to June 2010 for prices that ranged from \$552,000 to \$900,000 or from \$183.02 to \$296.64 per square foot of living area, land included. The board of review submitted evidence indicating that these comparables were very similar to the subject in location, design, exterior construction, age, and living area. The subject has a total assessment of \$50,551 which reflects a market value of \$565,447 or \$206.59 per square foot of living area, land included. The subject's market value as reflected by its assessment falls within the range established by the best sales in the record.

The Board gives little weight to the April 2009 sale of the subject property, because this sale was not as proximate in time to the January 1, 2010 assessment date as the sale dates of board of review comparables #1, #2, and #4. The Board likewise gives little weight to the March 2009 sale of board of review comparable #3.

Based on the evidence contained in the record, the Board finds the appellant has not shown by a preponderance of the evidence

Docket No: 10-33133.001-R-1

that the subject is overvalued as reflected by its assessment and no change in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
