

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Raymond Bogaert
DOCKET NO.: 10-33163.001-R-1
PARCEL NO.: 02-22-405-010-0000

The parties of record before the Property Tax Appeal Board are Raymond Bogaert, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,050
IMPR: \$47,719
TOTAL: \$51,769

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction. The dwelling is approximately 10 years old and contains 2,975 square feet of living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a three-car garage. The subject property has a 9,000 square foot site and is located in Palatine, Palatine Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and two of the comparables are located in the same tax block as the subject. The comparable dwellings are from three to fifty-nine years old and contain from 2,743 to 2,875 square feet of living area. Two comparables have finished basements, either full or partial, and the other two comparables have full unfinished basements. Each comparable has central air conditioning, a fireplace, and a

garage. The comparables have improvement assessments ranging from \$39,435 to \$43,033 or from \$14.06 to \$15.62 per square foot of living area. The subject's improvement assessment is \$47,179 or \$16.04 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$43,495 or \$14.62 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$51,769 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of frame construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from six to eleven years old and contain from 2,416 to 2,724 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, a fireplace, and a garage. These properties have improvement assessments ranging from \$44,749 to \$49,344 or from \$17.53 to \$19.37 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparables #1 through #3 were considerably older than the subject and received reduced weight in the Board's analysis. The board of review comparables #2 and #3 had significantly less living area than the subject and also received reduced weight. The Board finds the appellant's comparable #4 and board of review comparables #1 and #4 were very similar to the subject in age, location, design, exterior construction, living area, and features. Due to their

similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$43,033 to \$49,344 or from \$15.62 to \$18.24 per square foot of living area. The subject's improvement assessment of \$47,719 or \$16.04 per square foot of living area falls within the range established by the most similar comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
