

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Murphy
DOCKET NO.: 10-33326.001-R-1
PARCEL NO.: 04-28-410-025-0000

The parties of record before the Property Tax Appeal Board are Thomas Murphy, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,101
IMPR: \$120,415
TOTAL: \$138,516

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction. The dwelling is approximately ten years old and contains 5,461 square feet of living area. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces, and a three-car garage. The subject property has a 19,054 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame, masonry, or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and two of the comparables are located in the same tax block as the subject. The comparable dwellings are from six to ten years old and contain from 5,016 to 5,794 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, from one to three fireplaces, and a three-car garage. The comparables have improvement assessments ranging

from \$95,021 to \$102,600 or \$17.53 and \$18.94 per square foot of living area. The subject's improvement assessment is \$120,415 or \$22.05 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$101,520 or \$18.59 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$138,516 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and they are located in the same tax block as the subject. The dwellings are either six or ten years old and contain from 5,156 to 5,631 square feet of living area. Three comparables have full unfinished basements, and one comparable has a partial finished basement. Each comparable has central air conditioning, two or three fireplaces, and a three-car garage. These properties have improvement assessments ranging from \$117,918 to \$144,503 or from \$22.87 to \$25.66 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. All of the comparables submitted were very similar to the subject in location, design, age, living area, and most features. In addition, six of the comparables were located in the same tax block as the subject, and six of the comparables had masonry exterior construction like the subject. These comparables had improvement assessments that ranged from \$95,021 to \$144,503 or from \$17.53 to \$25.66 per

square foot of living area. The subject's improvement assessment of \$120,415 or \$22.05 per square foot of living area falls within the range established by these comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
