

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: M. Imran Khan
DOCKET NO.: 10-33377.001-R-1
PARCEL NO.: 04-33-311-007-0000

The parties of record before the Property Tax Appeal Board are M. Imran Khan, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds an increase in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,118
IMPR.: \$63,250
TOTAL: \$69,368

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction. The dwelling is approximately four years old and contains 3,575 square feet of living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a two-car garage. The subject property has a 10,640 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame, stucco, or frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and one of the comparables is located in the same tax block as the subject. The comparable dwellings are from 41 to 62 years old and contain from 3,347 to 3,768 square feet of living area. Each comparable has central air conditioning and a garage; two comparables have partial basements; and three comparables have a fireplace. The comparables have improvement assessments ranging from \$40,698 to

\$44,106 or from \$10.88 to \$13.18 per square foot of living area. The subject's improvement assessment is \$59,524 or \$16.65 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$42,328 or \$11.84 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$65,642 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are either four or seven years old and contain from 3,492 to 3,620 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, and a garage. Two comparables have a fireplace. These properties have improvement assessments ranging from \$62,594 to \$70,581 or from \$17.34 to \$20.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds an increase in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparables were considerably older than the subject and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in age and were very similar to the subject in location, design, exterior construction, living area, and most features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$62,594 to \$70,581 or from \$17.34 to \$20.21 per square foot of living

area. The subject's improvement assessment of \$59,524 or \$16.65 per square foot of living area falls below the range established by the most similar comparables. Based on this record, the Board finds that an increase in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
