

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Leone
DOCKET NO.: 10-33395.001-R-1
PARCEL NO.: 04-34-201-022-0000

The parties of record before the Property Tax Appeal Board are Robert Leone, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,574
IMPR.: \$73,374
TOTAL: \$83,948

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction. The dwelling is approximately six years old and contains 3,175 square feet of living area. Features of the home include a full finished basement, central air conditioning, a fireplace, and a three-car garage. The subject property has a 10,574 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame and masonry construction. The comparable properties have the same assigned neighborhood code as the subject, and one of the comparables is located in the same tax block as the subject. The comparable dwellings are from 53 to 59 years old and contain from 3,100 to 3,513 square feet of living area. One comparable has partial unfinished basement, and three comparables have finished basements, either full or partial. Each comparable has a garage, and three comparables have central air conditioning and

one or two fireplaces. The comparables have improvement assessments ranging from \$48,319 to \$52,796 or from \$14.50 to \$15.59 per square foot of living area. The subject's improvement assessment is \$73,374 or \$23.11 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$48,197 or \$15.18 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$83,948 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of frame or masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from three to sixty-three years old and contain from 1,288 to 3,326 square feet of living area. Each comparable has central air conditioning, a fireplace, a garage, and an unfinished basement, either full or partial. These properties have improvement assessments ranging from \$31,746 to \$89,992 or from \$23.11 to \$27.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The appellant's comparables and board of review comparable #1 were substantially older than the subject and received reduced weight in the Board's analysis. The Board finds board of review comparables #2 through #4 were most similar to the subject in age and were also very similar in living area, location, and design. Due to their similarities to the subject, these comparables received the most weight in the

Board's analysis. These comparables had improvement assessments on a unit basis of either \$23.11 or \$27.06 per square foot of living area. The subject's improvement assessment of \$23.11 per square foot of living area is identical to the improvement assessment of two of these comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
