

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Orlick
DOCKET NO.: 10-33403.001-R-1
PARCEL NO.: 04-27-415-003-0000

The parties of record before the Property Tax Appeal Board are Joseph Orlick, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,374
IMPR.: \$76,095
TOTAL: \$86,469

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction. The dwelling is approximately ten years old and contains 3,953 square feet of living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a three-car garage. The subject property has a 10,921 square foot site and is located in Glenview, Northfield Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four suggested comparable properties described as two-story dwellings of frame or masonry construction. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are each ten years old and contain from 3,953 to 4,366 square feet of living area. Each comparable has a full basement, one of which is finished; central air conditioning; a fireplace; and a garage, either two-car or three-car. The comparables have improvement assessments ranging from \$67,438 to \$72,914 or from \$16.31 to \$17.06 per square foot of living area. The subject's

improvement assessment is \$76,095 or \$19.25 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$66,213 or \$16.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$86,469 was disclosed. The board of review presented descriptions and assessment information on four suggested comparable properties improved with two-story dwellings of frame construction. The comparable properties have the same assigned neighborhood code as the subject and are located one-quarter mile from the subject. Each dwelling is ten years old and contains 3,953 square feet of living area. Each comparable has a full unfinished basement, central air conditioning, a fireplace, and a three-car garage. These properties have improvement assessments ranging from \$76,174 to \$83,209. On a unit basis, these properties have improvement assessments of either \$19.27 or \$21.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight suggested comparables. The Board finds that all of the comparables submitted were two-story dwellings that were ten years old like the subject dwelling. However, the Board finds the appellant's comparable #4 and the comparables submitted by the board of review were also identical to the subject in living area. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$67,438 to \$83,209 or from \$17.06 to \$21.05 per square foot of

living area. The subject's improvement assessment of \$76,095 or \$19.25 per square foot of living area falls within the range established by the most similar comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
