TOTAL: \$19,430**

ANALYSIS

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2010 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, multi-family dwelling of masonry construction. The dwelling is approximately 103 years old and has 2,997 square feet of living area. Features of the home include three apartment units, a concrete

slab foundation, and a two-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased in June 2007 for a price of \$150,000. The appellant submitted a copy of the warranty deed to document the subject's sale. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$19,430. The subject's assessment reflects a market value of \$217,338 or \$72.52 per square foot of living area, land included, when using the 2010 three year average median level of assessments for class 2 property of 8.94% under the Cook County Real Property Assessment Classification Ordinance as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales.

The appellant's attorney submitted a rebuttal brief.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value in the record to be the comparable sales submitted by the board of review. These comparables were generally similar to the subject in most characteristics. These four properties sold from July 2007 to July 2008 for prices ranging from \$160,000 to \$315,000 or from

\$66.92 to \$125.57 per square foot of living area, including land. Two of these sales occurred in January 2008 and July 2008 for prices of \$220,000 and \$160,000, respectively. The subject's assessment reflects a market value that falls within the range established by the best comparable sales in this record. The Board gives less weight to the subject's sale. The appellant did not complete section IV of the residential appeal form and did not demonstrate that the subject's sale met the key elements of an arm's length transaction and the subject's June 2007 sale was not as proximate in time to the assessment date as board of review sales #1 and #2. Based on this record the Board finds the subject's assessment is reflective of market value and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
