

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Crowe
DOCKET NO.: 10-33934.001-R-1
PARCEL NO.: 19-01-327-043-0000

The parties of record before the Property Tax Appeal Board are Anthony Crowe, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,997
IMPR.: \$ 16,671
TOTAL: \$ 19,668

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of 8,182 square feet of land improved with an 84-year old, three-story, masonry, multi-family dwelling with two units therein. The improvement contains a full basement and a two-car garage.

The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the bases of this appeal.

In support of the market value argument, the appellant submitted a copy of a residential appraisal report with an effective date of February 21, 2011. The appraiser estimated a market value for the subject of \$220,000, based upon development of the sales comparison approach to value which included market data on four sale comparables with adjustments applied thereto.

Further, the appraiser estimated the size of the subject's improvement at 3,677 square feet of living area, while submitting a building schematic as well as interior and exterior photographs of the subject. The appraisal also indicated that the appellant was attempting to add an addition onto the subject property.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$27,339. The subject's assessment reflects a market value of \$305,805 using the Illinois Department of Revenue median level of assessment for class 2, residential property of 8.94% for tax year 2010.

In addition, the board of review submitted detailed descriptive and assessment data on four suggested equity comparables. These properties ranged in improvement assessments from \$5.19 to \$6.65 per square foot. Moreover, the board of review's grid indicated that the subject's improvement contained 4,739 square feet of living area. Based upon this evidence, the board requested confirmation of the subject's assessment.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. After submission of evidence, the parties waived the right to hearing.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

In determining the fair market value of the subject property, the Board thoroughly considered the parties' evidence and finds the best evidence to be the appellant's appraisal. The Board finds the appraiser inspected the subject property and developed the sales comparison approach to value in estimating the subject's market value. Moreover, market data was used to obtain improved sale comparables while providing sufficient detail regarding each sale as well as appropriate adjustments, where necessary. Further, the Board finds that the appraisal

indicated the correct size of the subject's improvement at 3,677 square feet of living area.

The Board further finds that the board of review failed to proffer any market data to support the subject's valuation.

Therefore, the Board finds that the subject property contained a market value of \$220,000 for tax year 2010. Since the market value of the subject has been established, the median level of assessment as determined by the Illinois Department of Revenue for class 2, residential property of 8.94% will apply. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
