

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dawn Dollnig
DOCKET NO.: 11-01249.001-R-1
PARCEL NO.: 14-34-155-013

The parties of record before the Property Tax Appeal Board are Dawn Dollnig, the appellant, by attorney Clyde B. Hendricks in Peoria, and the Peoria County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Peoria** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,570
IMPR.: \$15,220
TOTAL: \$18,790

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a one-story frame dwelling containing 818 square feet of living area. The home was built in 1926. Features of the home include a partial unfinished basement and central air conditioning. The home is situated on a .13 acre lot located in Peoria, City of Peoria Township, Peoria County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this claim, the appellant submitted three suggested comparable sales located in different assessment neighborhood codes than the subject as defined by the local assessor. The comparables consist of one-story frame dwellings containing from 801 to 928 square feet of living area. The homes were built

from 1919 to 1948. The homes feature full or partial unfinished basements. Two comparables have detached garages of 216 or 240 square feet of building area. The sales occurred from April to October of 2011 for prices ranging from \$16,000 to \$25,000 or from \$17.24 to \$30.45 per square of living area including land.

Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$18,790 was disclosed. The subject's assessment reflects an estimated market value of \$56,991 or \$69.67 per square foot of living area including land using Peoria County's 2011 three-year median level of assessments of 32.97%.

In support of the subject's assessment, the board of review submitted a grid analysis of three suggested comparable sales. The comparables are located in the same assessment neighborhood code as the subject as defined by the local assessor. The comparables consist of one-story frame dwellings that were built from 1928 to 1949. They contain from 770 to 878 square feet of living area. The comparables feature full or partial unfinished basements. Two comparables have central air conditioning and two comparables have detached garages of 528 or 576 square feet of building area. The sales occurred in November 2010 or March 2011 for prices of \$55,000 or \$57,500 or from \$65.49 to \$71.43 per square of living area including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant argued that the subject is a rental home and the board of review's comparables are superior when compared to the subject. In addition, the board of review's comparable #2 did not sell through the Multiple Listing Service.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant argued the subject property is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331

Ill.App.3d 1038 (3rd Dist. 2002); 86 Ill.Admin.Code §1910.63(e). After an analysis of the evidence, the Board finds the appellant has not overcome this burden.

The record contains six suggested comparable sales for the Board's consideration. The Board gave less weight to the appellant's comparables due to their lack of central air conditioning which the subject enjoys. In addition, comparable #2 lacked exposure to the real estate market. The evidence in this appeal disclosed that the property had cumulative days on the market of "0", which calls into question the arm's length nature of the transaction. The Board finds the best evidence of market value to be the comparables provided by the board of review. The Board finds the sales submitted by the board of review were most similar to the subject in location, size and features. The sales occurred in November 2010 or March 2011 for prices of \$55,000 and \$57,500 or from \$65.49 to \$71.43 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$56,991 or \$69.67 per square foot of living area including land, which falls within the range established by the best comparables in this record. After adjusting the comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is justified and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
