

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sandra Schmulbach
DOCKET NO.: 11-02109.001-R-1
PARCEL NO.: 06-10-255-004

The parties of record before the Property Tax Appeal Board are Sandra Schmulbach, the appellant; and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,299
IMPR.: \$ 20,297
TOTAL: \$ 22,596

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2011 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame construction with 1,397 square feet of living area. The dwelling was constructed in 1971. Features of the home include a crawl space foundation and central air conditioning. The

property has a 1,653 square foot site and is located in Elgin, Elgin Township, Kane County.

The appellant contends overvaluation, assessment inequity and contention of law as the bases of the appeal. In support of the overvaluation argument the appellant submitted information on five comparable sales.

In support of the inequity argument regarding the subject's improvement, the appellant utilized the same comparables as depicted for the comparable sales. The appellant also argued a contention of law issue that the assessor failed to include sales from 2010 to determine the subject's assessment. A brief in support of this argument was not included.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,936. The subject's assessment reflects a market value of \$114,162 or \$81.72 per square foot of living area, land included, when using the 2011 three year average median level of assessment for Kane County of 33.23% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted assessment and sales information on nine comparable properties.

Conclusion of Law

The appellant contends, in part, the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted on this basis.

The Board finds the best evidence of market value to be appellant's comparable sales #1, #2 and #3. These most similar comparables, which are slightly superior to the subject, sold for prices ranging from \$20.81 to \$56.69 per square foot of living area, including land. The Board gave less weight in its analysis to the remaining comparables because they were dissimilar to the subject in design, basement area, age,

contained a garage unlike the subject and/or the dates of sale were too remote in time to determine the subject's market value as of January 1, 2011. The subject's assessment reflects a market value of \$81.72 per square foot of living area, including land, which is above the range established by the best comparable sales in this record. Based on this evidence the Board finds a reduction in the subject's assessment is justified on this basis.

The appellant also argued assessment inequity as a basis of the appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds no further reduction is warranted on this basis.

The appellant also argued that the board of review and/or the local assessor did not consider 2010 sales in determining the subject's assessment. The Board gave this argument no weight in its analysis because the appellant failed to support this claim with documentary evidence and/or other evidence to justify this statement.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has demonstrated by a preponderance of the evidence that the subject's estimated market value is excessive as estimated by its assessment and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
