

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Randall Machelski
DOCKET NO.: 11-20589.001-R-1
PARCEL NO.: 16-17-311-034-0000

The parties of record before the Property Tax Appeal Board are Randall Machelski, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,843
IMPR.: \$8,158
TOTAL: \$13,001

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 6,250 square foot parcel of land improved with a 86-year old, two-story, masonry, multi-family dwelling. The appellant argued that the fair market value of the subject was not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted an appraisal undertaken by Michael Grimes. The report states that Grimes is a State of Illinois certified residential real estate appraiser. The appraiser stated that the subject has an estimated market value of \$137,000 as of January 1, 2011. The appraisal report utilized the sales comparison approach to value to estimate the market value for the subject property. The appraisal states that Grimes personally inspected the property,

and that the subject's highest and best use as improved is a conversion to single-family use. The appraisal lists the subject as containing 1,710 square feet of living area. In addition, the appellant submitted an article and a grid to show the decline in the real estate market in the subject's area. Based on this evidence, the appellant requests a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$23,929 was disclosed. The subject's final assessment reflects a fair market value of \$252,150 when the 2011 Illinois Department of Revenue three-year median level of assessment for Class 2 properties of 9.49% is applied.

In support of the subject's assessment, the board of review presented descriptions and assessment information on three suggested comparables. The properties consist of two-story, masonry, multi-family dwellings with various amenities. These properties range: in age from 97 to 123 years; in size from 1,879 to 2,260 square feet of living area; and in improvement assessments from \$13.91 to \$17.39 per square foot of living area. They sold from October 2009 to May 2011 for prices ranging from \$400,000 to \$650,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted a letter asserting that the subject's comparables were not similar to the subject based on location and differing neighborhood values.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3d Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2d Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the Board finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The Board finds this appraisal to be persuasive because the appraiser personally inspected the subject property and reviewed the property's history, and used similar properties in the sales comparison approach while providing adjustments that were necessary. The Board gives little weight to the board of review's comparables as the information provided was unadjusted sales data.

Therefore, the Board finds the subject had a market value of \$137,000 for the 2011 assessment year. Since the market value of this parcel has been established, the 2011 Illinois Department of Revenue three-year median level of assessment for Class 2 property of 9.49% will apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
