

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lawrence Vock
DOCKET NO.: 11-21121.001-R-1
PARCEL NO.: 23-02-114-007-0000

The parties of record before the Property Tax Appeal Board are Lawrence Vock, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,591
IMPR.: \$12,633
TOTAL: \$17,224

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 10,400 square foot parcel of land improved with a 45-year old, one-story, frame, single-family dwelling containing 1,210 square feet of living area. The appellant argued that the market value of the subject property is not accurately reflected in its assessed value as the basis of the appeal.

In support of this argument, the appellant submitted descriptions and sales information on six properties suggested as comparable and located within seven blocks of the subject. The properties are described as one or multi-story, masonry, frame or frame and masonry, single-family dwellings with various amenities. The properties range in age from 35 to 47 years and in size from 1,040 to 1,683 square feet of living area. The

properties sold from September to December 2010 for prices ranging from \$169,000 to \$181,000 or from \$102.50 to \$163.92 per square foot of living area.

The appellant also included a letter listing sales of properties from 1997 to 2000. He asserts that the market during that time period has increased by only 1% when compared to the recent sales. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment of \$19,619 was disclosed. The subject's total assessment reflects a fair market value of \$206,733 or \$170.85 per square foot of living area using the Illinois Department of Revenue's 2011 three year median level of assessment for class 2 property of 9.49%.

In addition, the board of review submitted descriptive, sales, and assessment data on four suggested comparables with two properties located within one-quarter mile of the subject. These properties are described as one-story, frame or frame and masonry, single-family dwellings with various amenities. The properties range: in age from 46 to 48 years; in size from 1,092 to 1,612 square feet of living area; and in improvement assessment from \$10.44 to \$14.75 per square foot of living area. These properties sold from September 2009 to June 2010 for prices ranging from \$205,000 to \$235,000 or from \$139.66 to \$209.71 per square foot of living area. Based upon this evidence, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the evidence indicates a reduction based on market value is warranted.

The parties presented descriptive and sales information on a total of 10 suggested comparables. The Board finds the appellant's comparables similar to the subject in age, size, construction, design, and/or location and most reflective of the market on the lien date. These properties sold from September to December 2010 for prices ranging from \$169,000 to \$181,000 or from \$102.50 to \$163.92 per square feet of living area, including land. In comparison, the subject property's assessment reflects a market value of \$170.85 per square foot of living area, including land, which is above the range established by the comparables. Therefore, after considering adjustments and the differences in the comparables when compared to the subject, the Board finds the subject's market value is not supported and a reduction in the assessment based on market value is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
