

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Rupany
DOCKET NO.: 11-21431.001-R-1
PARCEL NO.: 01-26-100-023-0000

The parties of record before the Property Tax Appeal Board are James Rupany, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,758
IMPR.: \$ 56,998
TOTAL: \$ 69,756

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 72,906 square foot parcel of land improved with a 22-year-old, one-story, masonry, single-family dwelling containing 3,011 square feet of living area, three and one-half baths, air conditioning, two fireplaces, and a full, finished basement. The appellant argued there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within two miles of the subject. The properties are described as one-story, masonry, single-family dwellings. The properties have varying amenities. They range: in age from 27 to 40 years; in size from

2,897 to 5,471 square feet of living area; and in improvement assessments from \$12.73 to \$16.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$56,998 or \$18.93 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood. The properties are described as one-story, masonry, single-family dwellings. The comparables have varying amenities. They range: in age from 23 to 32 years; in size from 2,747 to 3,642 square feet of living area; and in improvement assessments from \$18.93 to \$20.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable. The PTAB finds the appellant's comparables #3 and #4 and the board of review's comparables #1 and #3 most similar to the subject in size, design, and construction. These properties range: in age from 23 to 36 years; in size from 2,897 to 3,424 square feet of living area; and in improvement assessments from \$16.35 to \$20.25 per square foot of living area. In comparison, the subject's improvement assessment of \$18.93 per square foot of living area is within the range of these comparables.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the

comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the PTAB finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
