

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bogumila Baca
DOCKET NO.: 11-21625.001-R-1
PARCEL NO.: 08-15-304-013-0000

The parties of record before the Property Tax Appeal Board are Bogumila Baca, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$580
IMPR.: \$17,342
TOTAL: \$17,922**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 1,223 square foot parcel of land improved with a 42-year-old, two-story, attached, masonry, single-family dwelling. The appellant argued there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

Appellant first argues that the county has incorrectly listed the subject's improvement size. She asserts that the subject improvement contains 1,155 square feet of living area. To support this, the appellant included a copy of a portion of an appraisal which included a floor plan sketch of the subject.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of three

properties suggested as comparable and located within one block of the subject. The properties are described as two-story, masonry, attached, single-family dwellings. The properties have varying amenities. They are 43-years-old, contain 1,122 square feet of living area, and have improvement assessments of \$13.74 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$17,342 was disclosed. The board of review lists the subject as containing 1,440 square feet of living area and submitted the subject's property characteristic printout to support this.

In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable with one comparable located within the subject's neighborhood and on the subject's block. The properties are described as one or two-story, masonry or frame and masonry, attached or unattached, single-family dwellings. The comparables have varying amenities. They range: in age from 35 to 47 years; in size from 1,122 to 1,280 square feet of living area; and in improvement assessments from \$15.69 to \$15.91 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

As to the subject's improvement size, the Board finds the appellant has submitted sufficient evidence to show the subject contains 1,155 square feet of living area. This reflects an improvement assessment of \$15.01 per square foot of living area.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable. The Board finds the appellant's comparables and the board of review's comparable #1 most similar to the subject in size, design, and construction and location. These properties are 42 or 43-years-old, contain 1,122 square feet of living area, and have improvement assessments from \$13.74 to \$15.69 per square foot of living area. In comparison, the subject's improvement assessment of \$15.01 per square foot of living area is within the range of these comparables.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
